Furniture Line

Laplace design

Furniture Line

In this catalogue, you will find the Laplace Design Furniture Line by typology.

The materials and dimensions indicated refer to a previously completed standard production or if a production plan already exists.

Each design can be considered in alternative materials, finishes, and dimensions. However, any requested adjustments must first be submitted to Laplace Design team to assess technical feasibility and cost, prior to any client presentation.

Designs marked as Never Produced or WIP are works in progress that have not yet been finalized or approved by Luis.

Regarding pricing for bespoke pieces:

- If the requested design is similar to a previous production (in terms of materials and dimensions), a price estimate can be provided quickly.
- If the requested design involves changes in dimensions, materials, or finishes of an existing bespoke —or if it is an entirely new design—no pricing can be shared until a quote has been obtained from the artisans. A quote can only be requested to artisans once all product specifications (dimensions, materials, and finishes) have been provided to Laplace Design team.

💧 You can see the water droplet pictogram next to the FL number if the design is suitable for outdoor use. Please make sure to specify the final use of the item at each production.
